

SWIM TEST RULES

The Colton Aquatics Facility is committed to providing the safest environment possible. The Swim Test Policy was developed to enhance safety for all young swimmers. **Prior to entering the pool, all youth (under the age of 17) will be swim-tested and given a colored wristband based on demonstrated ability.** The Swim Test consists of swimming the length of the deep end of the pool without stopping or grabbing the side of the pool. If you would like to try the swim test, ask a lifeguard in the Pool Office. Once tested, a swimmer will be given a wristband to signify their swimming proficiency.
